

## **Mexican Affinity Group Discussion Questions**

We want this session to be a time to reflect on your experiences in developing and implementing your intervention with HIV+ Mexican populations in your area. We are asking sites that will be participating in this breakout to review the following questions for discussion during our time together.

1. What were some of your major successes and challenges in recruiting Mexican participants?
2. What have been some of your major success and challenges in retaining Mexican participants in your intervention?
3. What is unique about your intervention? What are some of your unique experiences in delivering your intervention to Mexican participants?
4. In delivering your intervention to Mexican participants, what do you think worked well for your site?
5. How would you do things differently if you could start over?
6. What are some of the unique ways you've integrated transnationalism into your intervention for Mexican participants?
7. How might you change things as you move forward in the last part of this initiative?
